

Ciclo de vida de un proceso

Pila de procesos

(call stack)

Node Apis
(call stack)

Good Ideas

\$ nodes are 2x

Main()

greet()

```
let message = 'Hola $ {name}'
```

console.log(message)

function createGreets(name)

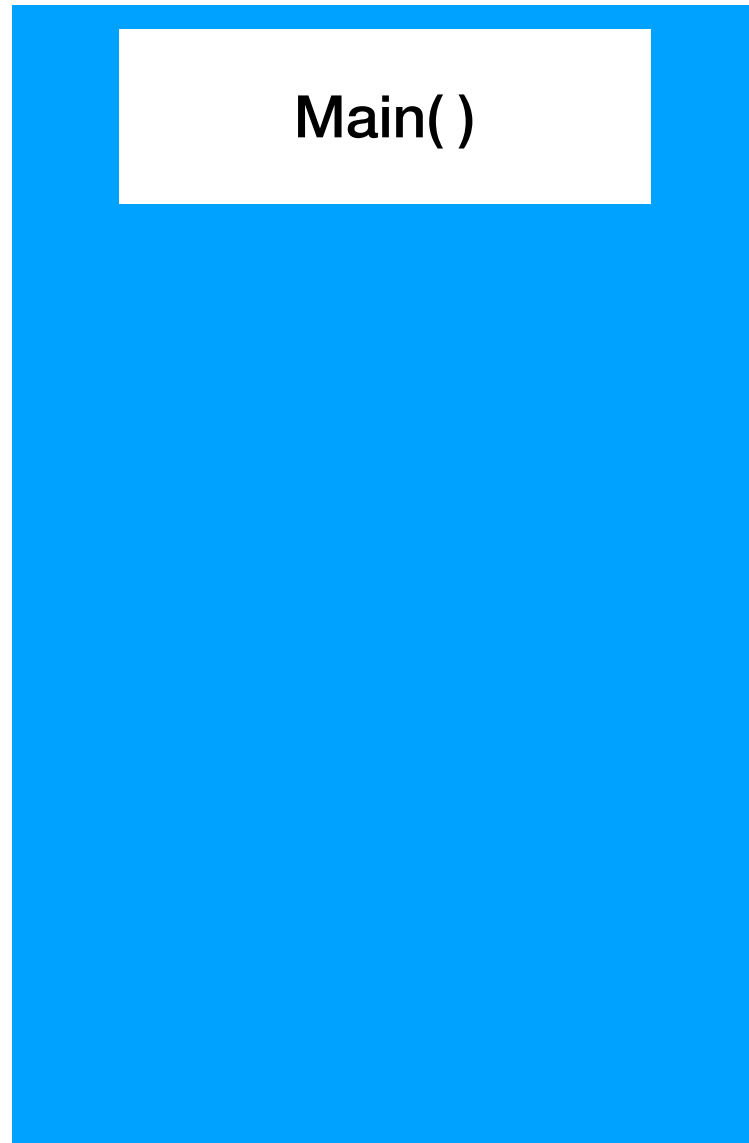

let greet == createGreet(name)

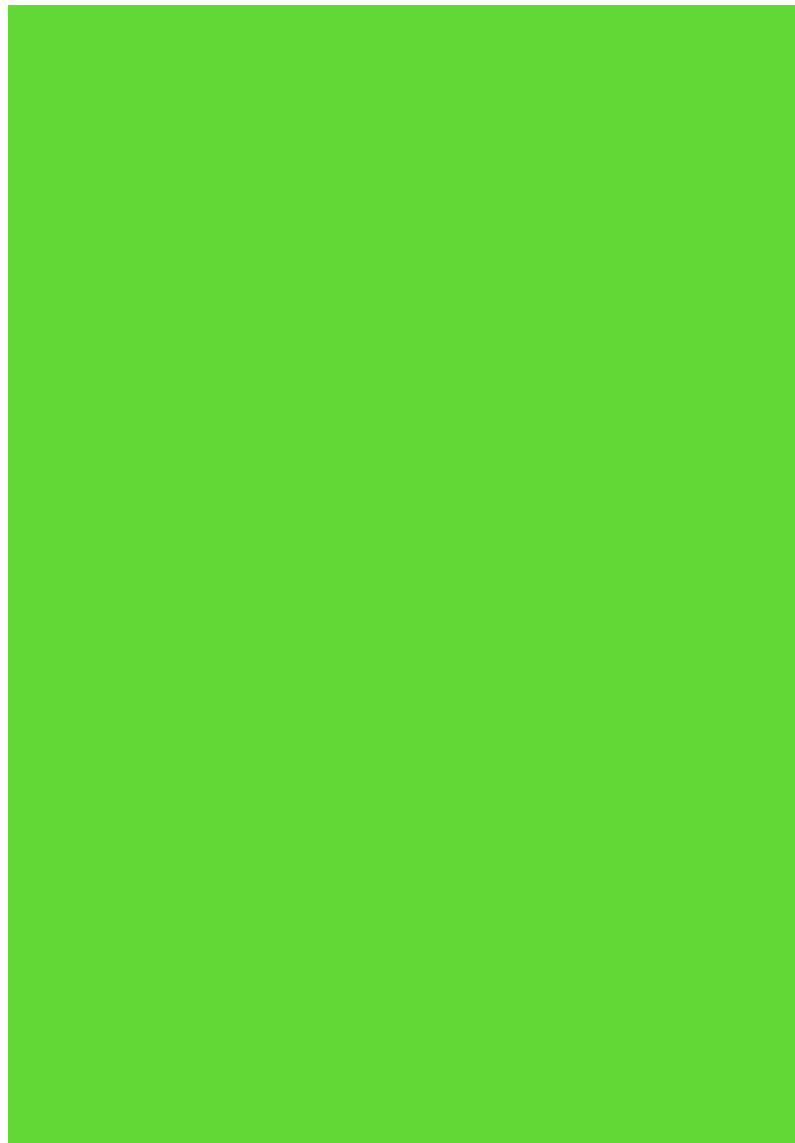

console.log(ignore it)

Ciclo de vida de un proceso node

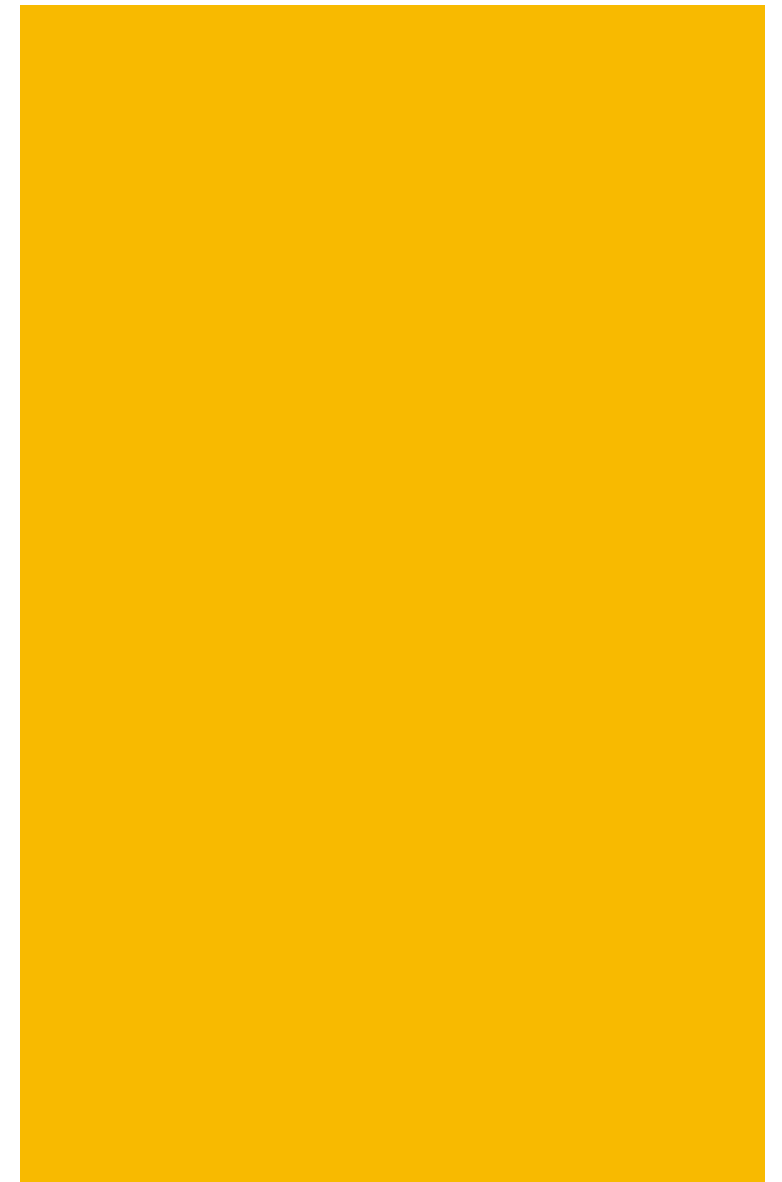

\$ node app2.js

**Pila de procesos
(call stack)**

**Node Apis
(call stack)**

Cola de callbacks

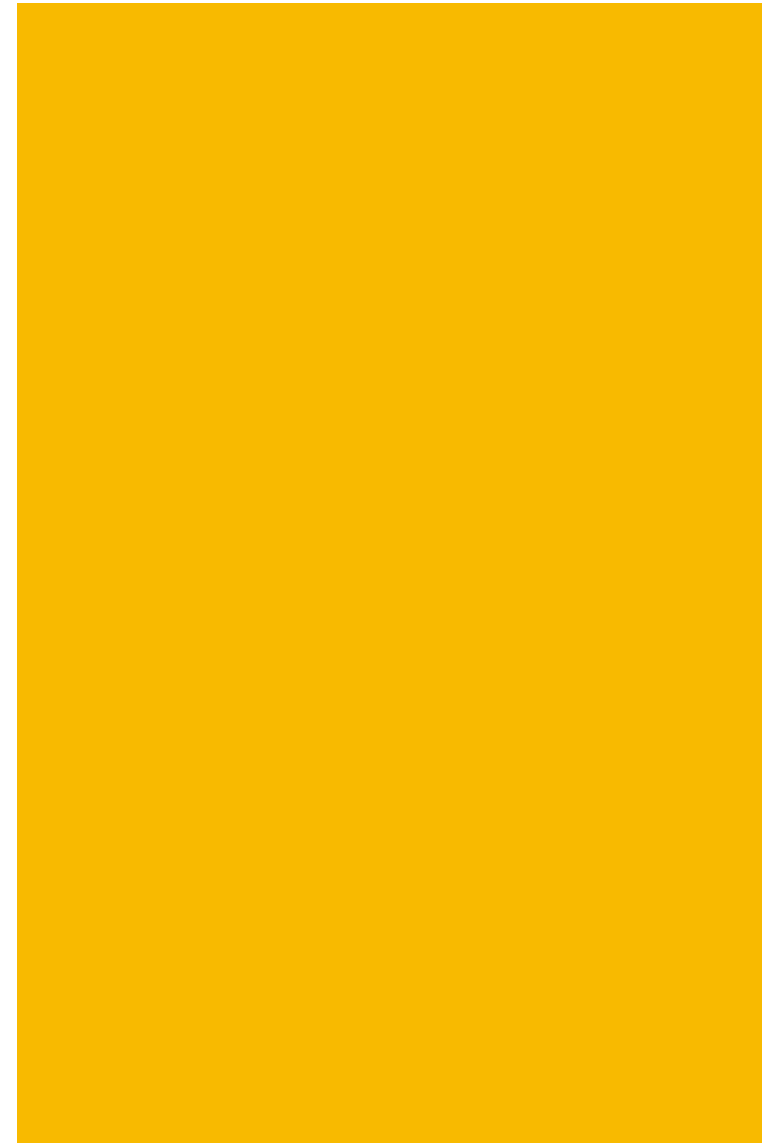

Ciclo de vida de un proceso node
